

2017

RESIDENT WORK SESSIONS

The City of Kansas City, Missouri, invites you!

WHAT ARE RESIDENT WORK SESSIONS?

These sessions are highly interactive forums in which Kansas City residents offer opinions and advice that can influence Citywide decision-making.

WHY ATTEND?

Your participation gives you a voice in your City government: what direction we're taking and how tax dollars are spent. Through these forums, you will have *real* input into *real* issues by:

- Participating in a **focus group session** to discuss your dreams and vision for our City's future.
- Learning about and **prioritizing the proposed objectives** in the new version of the Citywide Business Plan.
- Helping to create **policy and direction** for our City by using the Balancing Act web tool to construct and balance your own local budget - with the same constraints facing elected officials.

PLUS:

Meet City leaders, elected officials, and staff. Enjoy refreshments, make a difference and have some fun!
